The Ypsilanti Fair.

Correspondence of the Detroit Free Press.

YPSILANTI, Oct. 3.

The annual fair of the Eastern Michigan Agricultural and Mechanical Society, which is being held in this city, is a complete success. The exhibition of live stock is very fine throughout. The show of poultry is also a very attractive feature.

The weather to-day has been fine and the attendance at the fair large enough to satisfy the most hopeful. It is estimated that above 6,000 have passed through the gates during the day. The fair continues through to-morrow, when some good trotting takes place, which, it is thought, will draw a large crowd.
